

Activation manual

GENERAL WARNINGS

IMPORTANT INFORMATION

For operators' safety and to prevent any damage to the distribution system or to hardware devices, the instruction manual must be fully read and understood before carrying out any operation on software applications for the BSmart product range. The company rejects any responsibility due to malfunctions or damage coming from a missed or incomplete knowledge of this manual.

Storage of the manual

This manual must always be used as a reference for all topics. The final user and the skilled technicians authorised for installation, use and maintenance of the software must always be able to read it at any time.

Notes about validity

This manual was created with the utmost care. Nonetheless, involuntary omissions or inaccurate content or procedures might be present. PIUSI S.p.A. rejects any responsibility for the validity of the contents of this document or for changes it might undergo over time, for example with software and dedicated device updating and improvements. The illustrations provided mainly refer to the software configured in the English version and might not correspond to the displayed versions, also because of further version updates.
