

Light-weight 24 Volt (DC) motor for drum pumps suitable for laboratories, service cars or smaller filling requirements. Ergonomic handle for an easy one-hand operation. Thermal overload protection ensure operational safety.

Technical Specifications

Enclosure	Open Drip Proof (IP44)
Voltage	24 V(DC)
Power Rating	180 W
Nominal Current	7,5 A
Frequency	50-60Hz
Certification	CE
Housing Material	Thermoplastic Polyester Resin
Power Cord Length	3 m
Power Cord Plug	DIN 4165 Plug or Clamps
Noise Level	70 dBa
Thermal Overload Protection	Yes
Fixed Speed	12.500 rpm
Weight	2,0 kg

Models Variants

SPE-24VA	DIN 4165 Plug
SPE-24VB	Battery Clamps

Performance

Maximum Flow	75 l/min
Maximum Head	5 m
Maximum Viscosity	200 mPas
Maximum Density	1,2 kg/m ³

**measured with clean water at 21°. Pump Type: SP-PPS-39 drum pump*

Suitable for service cars, trucks, tractors, boats etc.
